Monthly minimum usage rates are \$97.00. This is a base rate, and is charged regardless of how little water you use. If you use more than 3,000 gallons of water in a month, there is an overage charge of \$11.50 per 1,000 gallons over. If you need your water shut off for any reason (e.g. moving, going away for an extended period of time, etc.) you must inform the office otherwise the base rate will still be charged monthly. There is a \$50 fee for shutting off/turning on service, and must be done when a homeowner is present. A water deposit of \$100.00 is required by assessed owners and is refundable should you sell your property minus and outstanding charges.
